

FLY AND FLOAT – Rafting and birds

Find a seat in a tropical garden of **Rockland's Bird Sanctuary** and hold on to a small bottle of sugar water. Just be patient.... soon you will have a **Doctor Bird** literally eating out of your hand and get a chance to **hand-feed** a variety of other birds. A one of a kind treat for you as well as the birds! Then sit back and relax as your experienced captain guides your **bamboo raft** under a historic 19th century old bridge, through mild rapids and pass exotic vegetation while you float downstream the **Great River**. Enjoy the calm and silence of your surroundings and feel free to go for a refreshing swim as your raft goes down the river and just relax. A must for bird watchers and nature lovers!

Half Day

Departure 9 AM - Return appr. 1PM
